PROJECTS

WorldGuru | *Java, HTML/CSS, SQL*   May 2023

Team project. The app is a set of mini-games on geographical topics: defining the flag of the country, knowing the fact about it, knowing the country's territory and characteristics. The app provides the ability to register a user, authenticate them subsequently, and save progress in minigames, as well as games without registering without retaining progress.

TheWayBy | *Python, TelegramBotAPI*   November 2023 - Till now
